14. That at the regular meeting of this Committee on Thursday, the 14th inst., charges were made by Trustee Dr. Hopkins calling in question the loyalty and competency of Mr. H. E. Lee, Assistant Master on the staff of Annette Street Public School. A Special meeting of the Committee was held on Tuesday, the 19th inst., to hear the evidence. The Committee met again on Wednesday, the 27th inst., to consider the evidence, and after due consideration, finds:

(a) That Mr. Lee is not a Teuton or German. His forefathers were U. E. Loyalists.

(*b*) Mr. Lee, as directed by this Board and by the Department, gave "War Talks" to his pupils. In these talks Mr. Lee did not instill any Pro-German or Anti-British ideas into the minds of his pupils, in so far as the evidence shows.

(*c*) Your Committee is of the opinion that the question of Mr. Lee's ability as a teacher should come to the Management Committee through the proper channels.

(*d*) That Mr. Lee did not teach loyalty in as direct or positive a manner as your Committee would desire teachers to do, especially during the present war crisis.

(*e*) That Mr. Lee be again placed in charge of his class.

(*f*) That the thanks of the Management Committee are due to Trustee Hopkins for his prompt action in this matter.

That Mr. Lee, who had been under suspension pending the investigation, will resume regular charge of his class on Monday, February 1st.

Respectfully submitted,

G. J. STEELE,

"In this Act, 'Adolescent' shall mean a young person of either sex who is not less than fourteen and not more than seventeen years of age."

Section 3 of the Act:

(1) A Board may pass By-Laws requiring the attendance of adolescents in a city, town or village under the jurisdiction of the Board, at day and evening classes, to be established by the Board or at some other classes or school in the municipality.

(2) Every such By-Law shall be passed at a special meeting of the Board called for the purpose of considering the same after Public notice of the meeting and of the object thereof has been given once a week for four weeks in some newspaper published in the city, town or village, or if there is no such newspaper, in a newspaper published in an adjoining municipality or in a county or district town."

Some of these pupils, if not too large or too backward, could be required to attend the school of their district. Others could be required to attend night school. A few special classes could be opened for others. Probably some who have completed Third

23. Your Committee again recommends that steps be taken to put into force the Adolescent School Attendance Act, to be applied among other cases, in respect to certain Public School pupils of the City of Toronto, who, owing to insufficient attendance, have not been able to complete an ordinary Public School education before becoming fourteen years of age.

The following extracts from the Act explain its scope, and suggest the course to be taken to bring it into force:

"In this Act, 'Adolescent' shall mean a young person of either sex who is not less than fourteen and not more than seventeen years of age."

Section 3 of the Act:

(1) A Board may pass by-laws requiring the attendance of adolescents in a city, town or village under the jurisdiction of the Board, at day and evening classes, to be established by the Board or at some other classes or school in the municipality.

(2) Every such by-law shall be passed at a special meeting of the Board called for the purpose of considering the same after public notice of the meeting and of the object thereof has been given once a week for four weeks in some newspaper published in the city, town or village, or if there is no such news-

paper, in a newspaper published in an adjoining municipality or in a county or district town."

Some of these pupils, if not too large or too backward, could be required to attend the school of their district. Others could be required to attend night school. A few special classes could be opened for others. Probably some who have completed Third Form Courses could most profitably be provided for at Technical School.

24. Your Committee has considered the following motion of Mr. Houston:

(a) That in every Public School that has a Kindergarten Department, a Kindergarten Primary grade shall be established in place of the present Junior Primary one, and the present Senior Primary grade shall be designated the "Primary" grade.

(b) In the selection of kindergarten work for use in the Kindergarten Primary grade the systematic development of manual training, domestic science and art in all the higher Public School forms shall be kept in view.

(c) The maximum attendance of pupils in the kindergarten department shall be fifty, and in the primary grades thirty for each room.

(d) Children shall be admitted to the kindergarten, the kindergarten primary grade and the primary grade at the ages of four, five and six respectively, the intention being that they shall commence second form work at seven, and complete fourth form work at thirteen.

(e) After the completion of the fourth form course, pupils shall be allowed a fourfold option, to be exercised without constraint or competitive inducement, among: (a) continuation work in the Public School fifth form; (b) lower school work in the ordinary High Schools; (c) elementary work in the Industrial School; (d) elementary work in the High School of Commerce and Finance.

(f) Fifth form work in the Public Schools shall include elementary science, algebra and geometry as obligatory subjects for all pupils.

And reports against paragraphs (d) and (f), and that para-

graphs (a), (b), (c) and (e) have been referred to the inspectors to report on.

To the Board of Education:

At a meeting of the above-named Committee, held this day, the following members being present, viz., Messrs. Steele, Dineen, Fairbairn, Hodgson, Houston, Hunter and McTaggart, it was decided to recommend as follows:

4. Your Committee has considered the communication of the Secretary of the Public Library Board in reply to Dr. Hopkins' resolution asking them to consider the question of the advisability of having the Libraries opened on Sundays for the convenience of the Military stationed in Toronto and the public generally and express their sympathy with the suggestion that the Libraries be opened each Sunday for a time.

5. Your Committee has considered Dr. Hunter's motion, referred to them by the Board December 2nd: "That (a) at the first regular meeting of the Board in each year, four special commit-

tees be appointed, of at least three members in each, and all to be selected from those whose vocation, knowledge and experience fit them for the work connected with the following departments: First, Inspectors, teachers and curriculum; second, building, equipment and playgrounds; third, medical inspection and care of needy children; fourth, finance. (b) The Chairman of the Board to be an "ex-officio" member of all and the Chairman of the Management, Property, Medical Inspection and Finance Committee be chairman of the special committee interested in his department. (c) That it be the special function of each of these committees to procure information in regard to the work allotted to it, and to report to the Standing Committees, and to the Board at their first meetings in each month, any criticisms, or suggestions that it believes would serve as a reproof, a correction or an inspiration to these committees and to the Board," and recommends against same.
